AUDIT SUMMARY

We have audited the basic financial statements of Augusta University (University) as of and for the year ended June 30, 2017, and issued our report thereon, dated December 18, 2017. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our Independent Auditor's Report, included in the University's Annual Financial Report, is available on the Georgia Department of Audits and Accounts' website at <http://www.audits.ga.gov/> and at the University's website at <https://www.augusta.edu/>.

Our audit of the University found:

- the financial statements are presented fairly, in all material respects;
- no internal control findings requiring management's attention;
- no instances of noncompliance or other matters required to be reported under Government Auditing Standards; and
- deficiencies identified in the prior year audit report were addressed.

Members of the General Assembly of the State of Georgia
Members of the Board of Regents of the University System of Georgia
and
Dr. Brooks Keel, President
Augusta University

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, the aggregate discretely presented component units, and the aggregate remaining fund information of Augusta University (the University), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated December 18, 2017. Our report includes a reference to other auditors who audited the financial statements of AU Health System Inc., AU Medical Associates, Augusta University Foundation Inc., Augusta University Research Institute, Inc., Georgia Health Sciences Foundation, Inc. and Medical College of Georgia Foundation, as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal controls over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the Georgia Health Sciences Foundation were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Greg S. Griffin
State Auditor

December 18, 2017
